

## PRODUCT INFORMATION

### MINOX DC 8022 WP

#### The outdoor professional – watertight and shock-proof

The MINOX DC 8022 WP opens new horizons for digital photography with MINOX! With its sturdy metal body that is watertight up to a depth of ten meters this compact digital camera fights off dust, water, sand and salt and has been specially designed for work in a rough environment. The new MINOX is therefore not only an absolute highlight for extreme sports and outdoor activities, it is also at home in the industry and the construction field. Measuring just 95 x 59.5 x 20.5 mm its slim and ergonomic design makes it the perfect

companion for outdoor activities. Eight megapixels guarantee a superb image resolution, rendering every detail in magnificent contrast and pin-sharp definition.

And not only mountain trekkers with their spectacular views will appreciate the panorama function of the new DC 8022 WP. With this feature 360° panorama shots can be captured with ease on the SD card. An electronic image stabilizer additionally reduces camera shake, even when hands start to wobble.

The high performance of the 2.5 inch color monitor with excellent light transmission is shown off to its best advantage when shooting underwater images. The autofocus lens with 3x optical, interior zoom and the macro function provide great flexibility when framing the subject, both in and out of water.

The menu operation is easy and self-explanatory. Depending on the situation there are 24 subject exposure programs to choose from, ranging from the sports mode to nighttime shots up to underwater shooting. And the friendliest option of all with this camera is the Smile Detection. This feature scans faces for the very best smile – and then shoots the picture. Another unusual and a very original additional option for the creative photographer is the Coupling Shot. This enables two images to be merged into one – a real treasure chest for creative photo superimposition.

The scope of delivery of the new MINOX DC 8022 WP includes a Lithium-Ion battery, an AC Adaptor, processing software, driver CD, USB/video cable, case, strap and the User Manual.

#### Technical Data

Image Sensor	8.0 Megapixels CCD
Resolution	3,264 x 2,448 pixels / 2,816 x 2,112 Pixels / 2,048 x 1,536 pixels / 640 x 480 pixels
Colour	24-bit Color RGB
Lens	Autofocus MINOCTAR lens
Aperture range	f = 3.5 (W) – 4.5 (T)
Focal length	6.3 mm (W) – 18.9 mm (T) (corresponds to 38- 114 mm with 35 mm format)
